

Certification of Public Testing

The following testing procedures are required for voting systems certified for use in Montana pursuant to Montana Code Annotated and Administrative Rule: *No more than 30 days prior to an election in which a voting system is used, the election administrator shall publicly test and certify that the system is performing properly.* [13-17-212\(1\), MCA](#)

Instructions:

1. Fill in the name of the election administrator and the name of the county
2. Select the voting system/ballot marking device
3. Enter the amount of machines tested
4. Complete the date of signature
5. Election Administrator and at least one witness must sign certification
6. File with the Secretary of State and retain a copy for county records

I, Crystal Roascio, Election Administrator for the County of Carbon, State of Montana, hereby certify that I have, **in the presence of at least one witness**, tested the programming of the voting system(s)/ballot marking device listed below.

Voting System/Ballot Marking Device
ES&S DS200

Amount of Machines Tested
 2
of machines tested
of machines tested
of machines tested

In accordance with Montana laws, administrative rules, and testing guidelines, we find that the system(s) is/are performing properly.
